LET'S BE HONEST

In Miami, a renovation is where the dream quietly meets reality.

If you've hesitated to start, it's usually not the money. It's the fear of what you've seen happen to other people:

01 “The quote was one number. The final bill was another.”

Vague estimates that balloon 30–50% once the walls are open and it's too late to walk away.

02 “The contractor went quiet halfway through.”

No single person accountable, a rotating cast of subs, and your home frozen mid-demolition.

03 “The condo board shut everything down for a month.”

No approved package, no COI, no elevator booking — weeks lost to paperwork nobody mentioned.

04 “Permits? We didn't pull permits.”

Unpermitted work that surfaces years later and blocks your sale at the worst moment.

You're not being difficult. You've just been let down before. **This guide — and our team — exist so it doesn't happen again.**

Real 2026 Miami numbers — no “it depends”

Ranges for quality design-build work in Miami-Dade, materials and management included. A cheap crew quotes less and costs more by the end. Every M5 quote is itemized line by line before you sign — and it doesn't move without a change order you approve first.

SCOPE OF WORK	TYPICAL 2026 RANGE
Interior design + photoreal 3D	from \$6 / sq ft
Turnkey apartment renovation	from \$145 / sq ft
Kitchen remodel	\$40K – \$90K+
Bathroom remodel	\$25K – \$60K+
Decorative plaster (Venetian · microcement)	from \$18 / sq ft · from \$10K
New construction / villa	from \$390 / sq ft

FINISH LEVEL CHANGES EVERYTHING

The same square footage can swing 70% on finish alone. Here's the multiplier we use on a turnkey renovation:

×1.0

Standard

Quality materials, clean detailing, durable everyday finishes.

×1.35

Premium

Custom joinery, stone, designer lighting, higher-end fixtures.

×1.7

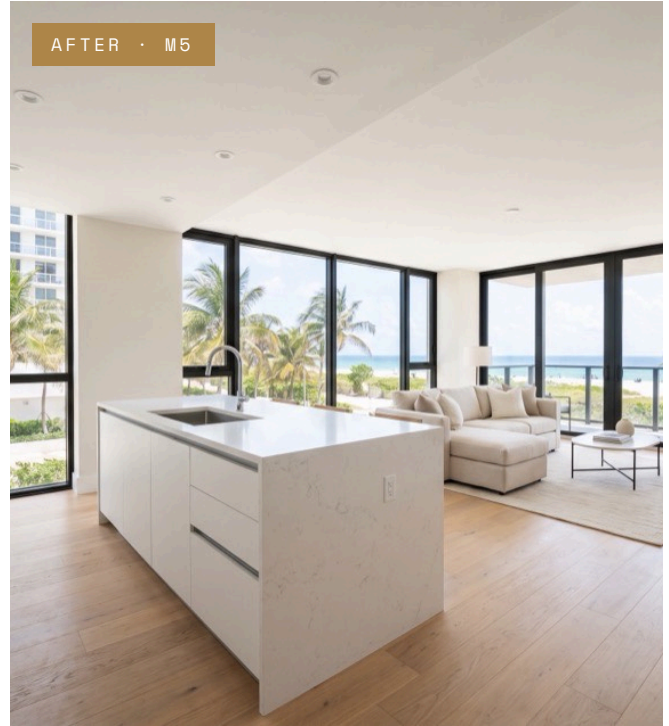

Luxury

Signature materials, full custom millwork, imported finishes.

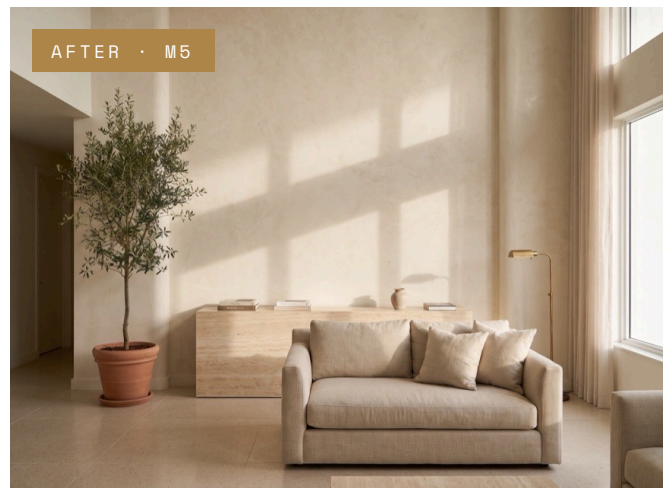

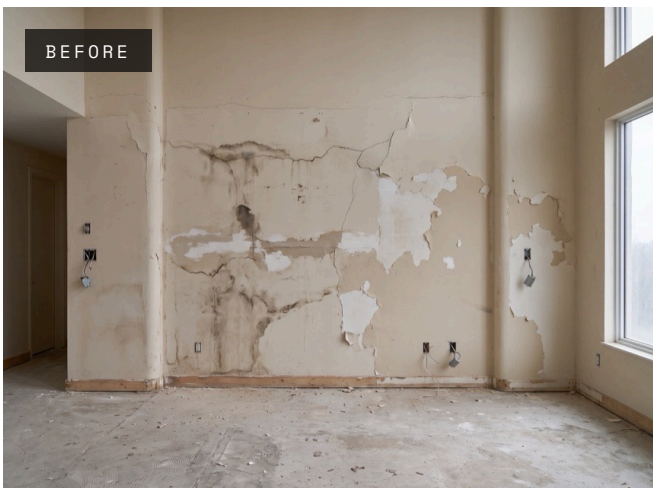

Worked example. A 1,200 sq ft apartment, turnkey at Premium: roughly **\$210K–\$270K**. A 345 sq ft kitchen at Premium: about **\$55K–\$75K**. The instant estimate on m5miami.com does this math live for your exact space.

This is the difference a managed renovation makes

Same footprint. Same building rules. The only variable is who ran the project. Every M5 job is permitted, insured and delivered by one accountable team — start to finish.

EDGEWATER CONDO • GUT RENOVATION + OPEN KITCHEN • TURNKEY

DAMAGED WALL → HAND-TROWELED DECORATIVE PLASTER FEATURE

Why budgets blow up — and how we prevent it

WHAT DRIVES THE PRICE	HOW M5 HANDLES IT
Scope & layout changes — moving walls, plumbing, electrical	Locked in design, priced upfront
Finish level — Standard → Luxury nearly doubles cost	You choose per room, eyes open
Hidden condition — older Miami units surprise you	10–15% buffer built into the plan
Custom joinery & stone	Quoted as clear line items

THE MIAMI CONDO REALITY

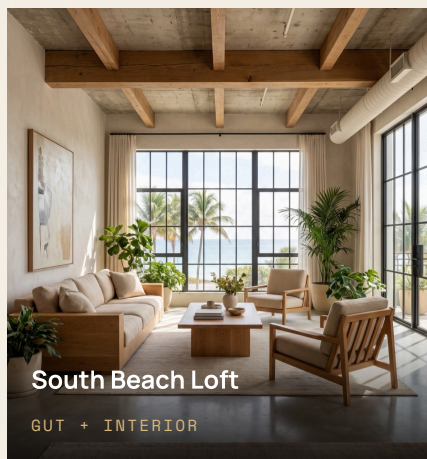

Five things that stall a renovation — all handled for you

REQUIREMENT	WHAT IT MEANS
Condo board approval	Plans, insurance & licenses reviewed first — allow 2–6 weeks. We prepare the full package.
Certificate of Insurance	No COI, no elevator, no work. We file it.
Elevator & loading	Booked service elevators, set hours — we run the logistics.
Noise / work hours	Demolition often 9–5 weekdays; schedule is built around it.
Miami-Dade permits	Electrical, plumbing, structural — permitted & inspected. Protects your resale.

Buying to renovate or flip? Bring us in before you close. A 20-minute walkthrough can flag the difference between a \$60K refresh and a \$200K rebuild — and change what you're willing to pay.

Real projects. Real Miami addresses.

Not stock photos — spaces our team designed and built. This is the standard your project is held to.
